

SUVADEEP MALLIK

Audio Production Specialist | Data & Quality Analyst

Thakurnagar, West Bengal, India | +91 8240704625 | suva92.ee@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Detail-oriented professional with 10+ years of hands-on audio engineering and quality assessment experience, supported by a strong foundation in data analysis and structured data evaluation. Skilled in audio/speech quality assessment, data labeling, quality checking, ambiguity resolution, and consistent decision-making with a high level of accuracy. Experienced with Python, SQL, Excel, Power BI and GenAI-powered analytics, with a strong focus on delivering reliable, high-quality AI training data.

CORE SKILLS

- Audio Quality Assessment & Production Standards
- Audio & Mix-Master Engineer
- Audio Speech/Voice Refining
- Audio Editing & Post-Production
- Data Quality Evaluation & Structured Data Labeling
- Attention to Detail, Independent Judgment & Decision-Making on Ambiguous Material
- Exploratory Data Analysis, Statistical Analysis & Data Cleaning
- Stakeholder Communication & Reporting
- Python (NumPy, Pandas, Scikit-learn) | SQL | Power BI, Tableau, MS Excel, MS Office
- GitHub

RELEVANT EXPERIENCE

Independent Business Owner — Audio Engineer & Live Event Management

2016 – 2026

- Delivered professional audio production and sound quality control across 1,000+ live events over 10+ years, applying critical listening skills to maintain clear, natural, and consistent audio output under varied real-world conditions.
- Exercised independent judgment to resolve ambiguous, time-sensitive audio and technical issues on-site, arriving at consistent, defensible decisions under pressure.
- Communicated technical audio requirements and feedback clearly to clients, vendors, and cross-functional teams, strengthening long-term relationships through precise, reliable reporting.
- Analyzed budgets, vendor performance, and scheduling data to guide data-driven planning, controlling costs and optimizing resource allocation.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Claude with Google Cloud's Vertex AI (Anthropic Academy), Sep2026 — Studied AI reasoning and logic through prompt engineering, multi-turn workflows, and model evaluation, building applied insight into how AI models apply logic and judgment to instructions.
- Tata Group (Tata iQ) — GenAI-Powered Data Analytics Job Simulation, Feb 2026
- Deloitte Australia — Data Analytics Job Simulation, Mar 2026
- Jio Institute — AI Foundation Course (AI Classroom, powered by JioPC), Aug 2026

EDUCATION

B.Tech, Electrical Engineering — Narula Institute of Technology, MAKAUT, West Bengal | 2012 – 2016
